WHAT ECO TOURISM ?

Ecotourism encompasses nature-based activities that increase visitor appreciation and understanding of natural and cultural values.

Ecotourism is a form of tourism based on the concept of organizing travel to places of natural beauty, but doing so in a way that avoids damaging the environment, while also helping local people. It can be viewed as a means of limiting the damage caused by travelling to natural areas, while trying to leave a positive legacy.

BUBBLE HUT

www.ubadventurez.com

A bubble hut is an inflatable 'tent' or shelter that is typically transparent and is made from a thick plastic or PVC material. They come in a variety of shapes and sizes, often with living areas and attached rooms for sleeping or simply 'hanging out'. Many bubble tents are heated and include amenities such as bathrooms, toilets, kitchen facilities and many of the other comforts that you will need for comfortable living.

BAMBOO HOUSE

www.ubadventurez.com

Bamboo, a sustainable building material, has been used in the construction of traditional houses in tropical regions of southeast Asia and other parts of the world for a long time. The entire structure of a traditional Dai bamboo building is made of bamboo bundling. The walls are made of bamboo sticks (thin pieces of bamboo), while the roof is covered with straw clamped by bamboo sticks. The bamboo building is very light.
