Bird Park

Birds park is a must for all those who have nature in heart. Flamingos, pelicans, swans, storks owls, cranes, parrots and many other amazing birds from around the world thrive happily and m

Bird Park is now a world-famous bird zoo where there are specimens of magnificent bird life from around the world, including a large number of flamingos.

Stimulator Zone

Its Innovative, patented technology delivers a compact motion simulator which integrates flexibly, yet delivers a truly realistic ride.

Augmented Reality Rides

Augmented Reality is a live, direct or indirect, view of a physical, real world environment whose elements are augmented by computer-generated sensory input such as sound, video. We will have both Nature Related and Character related rides.

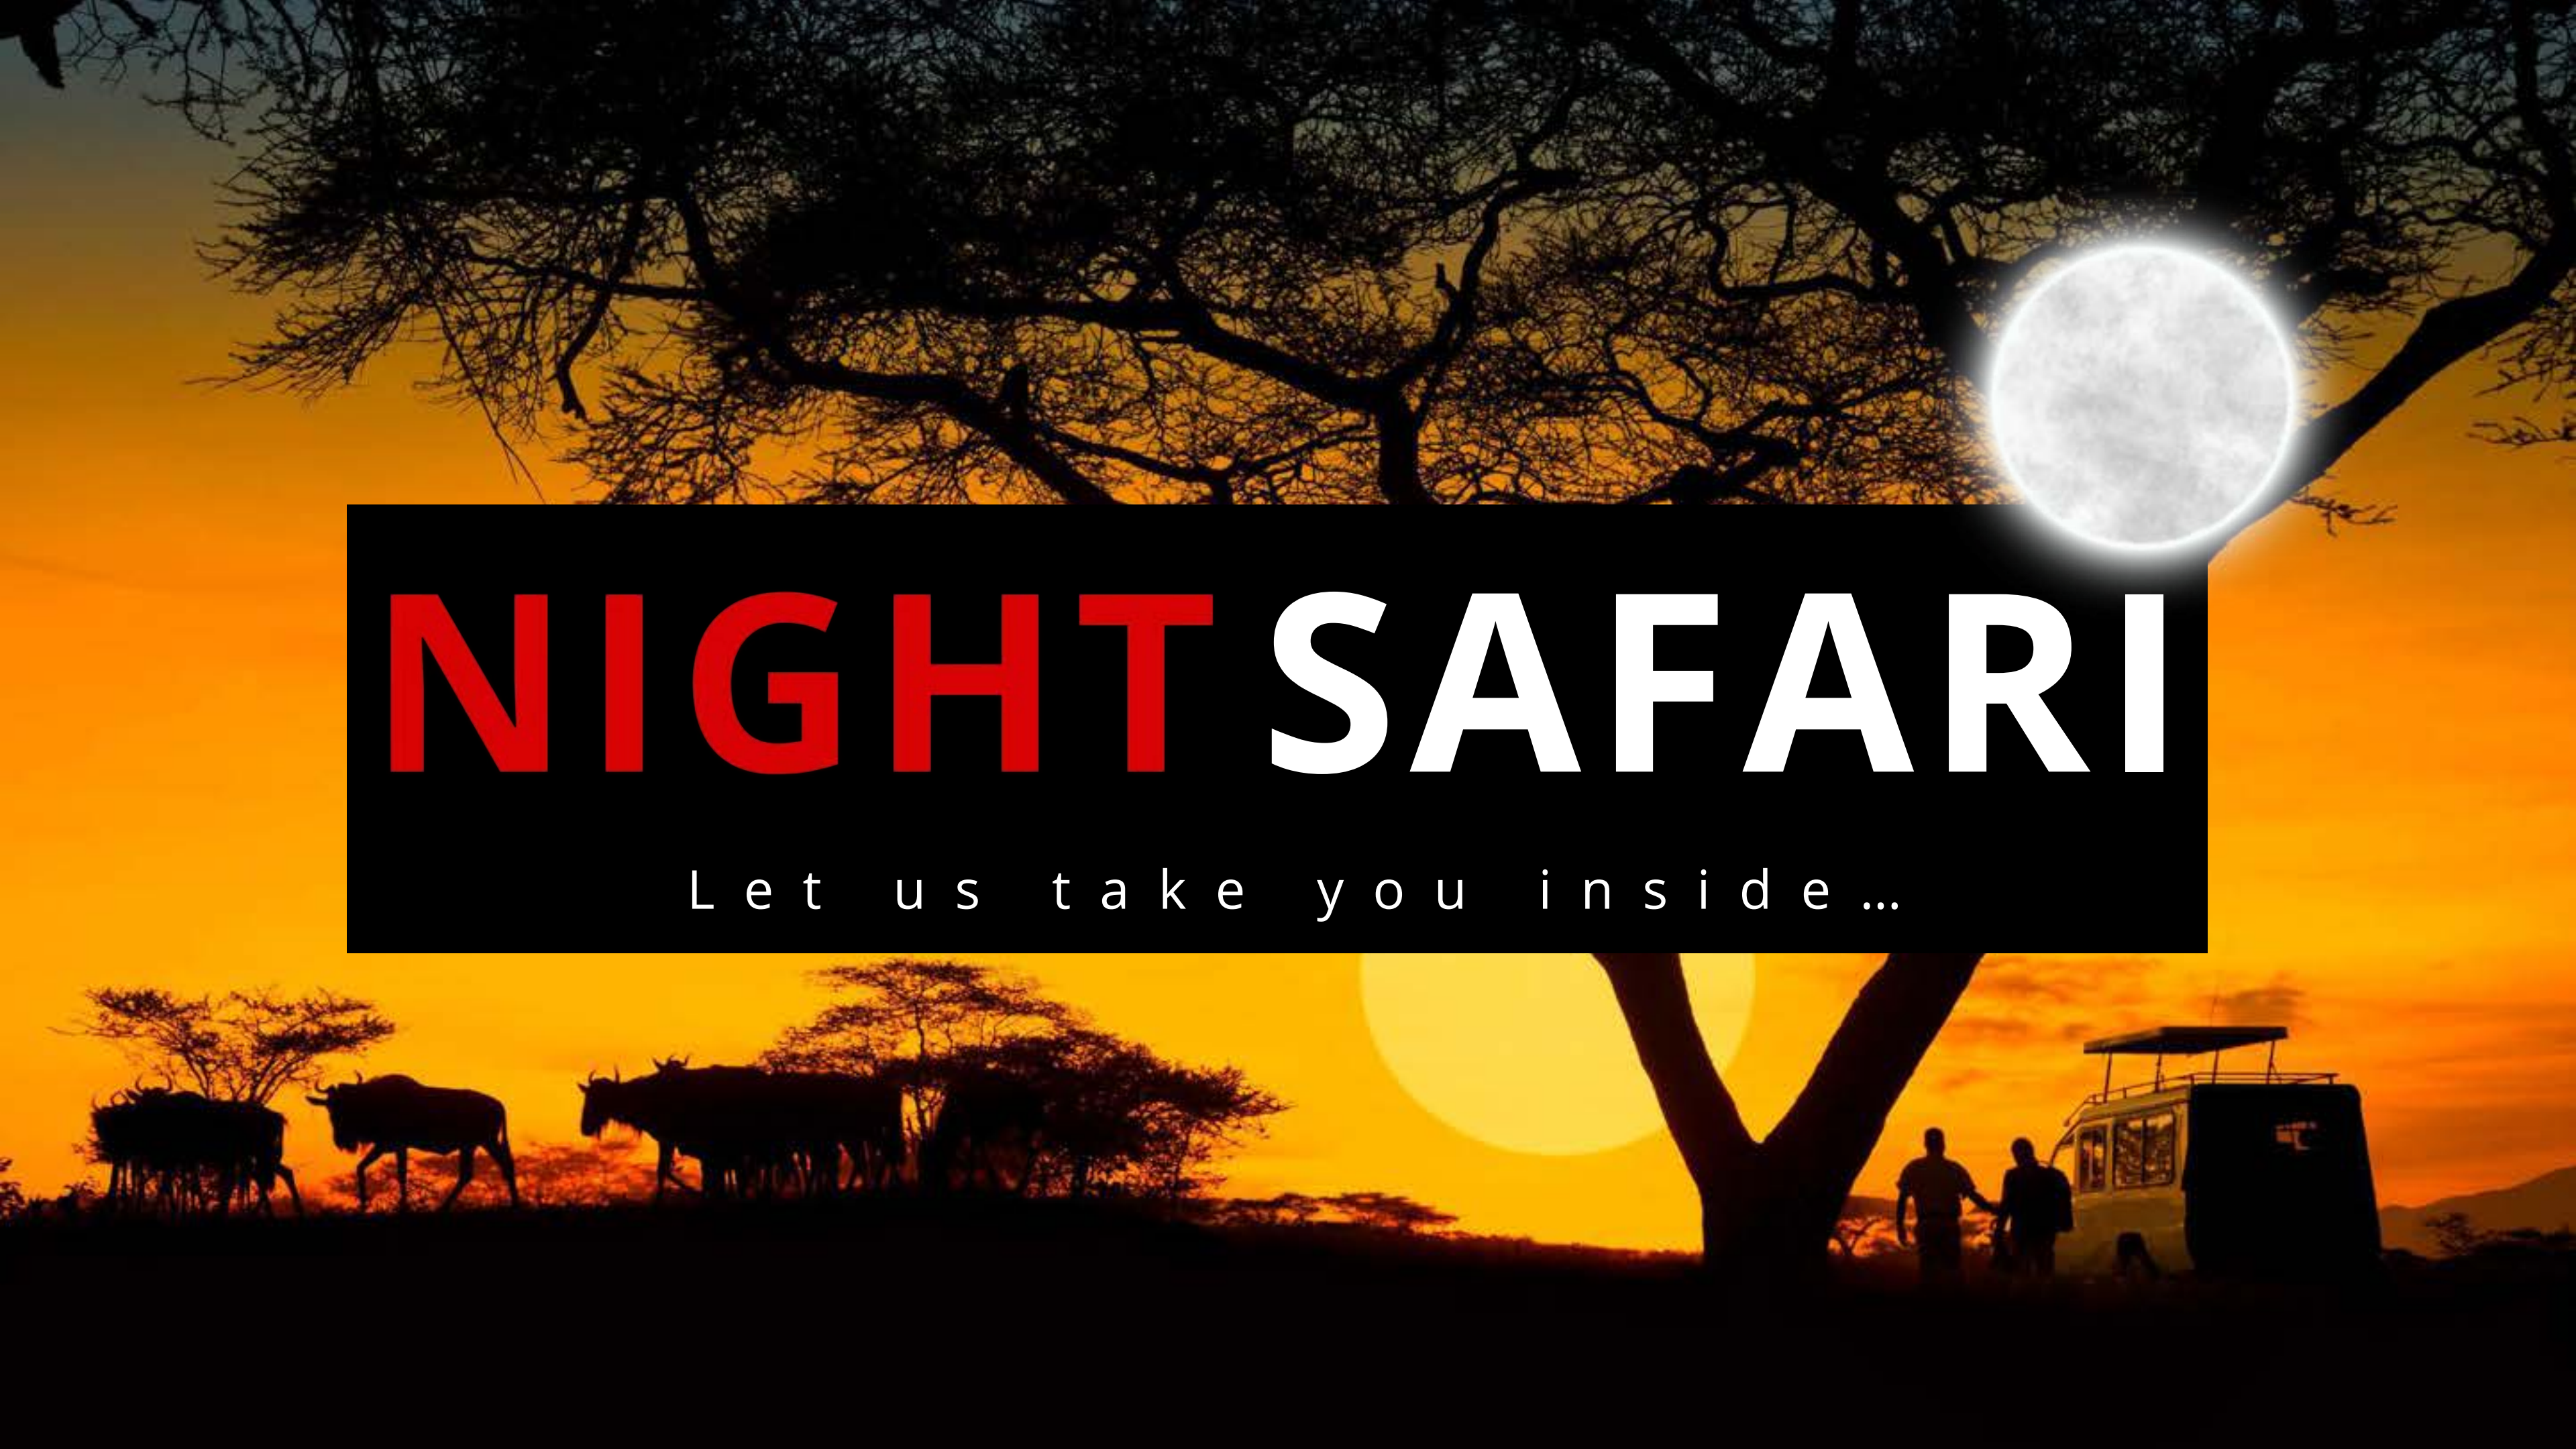

Laser Tag Zone

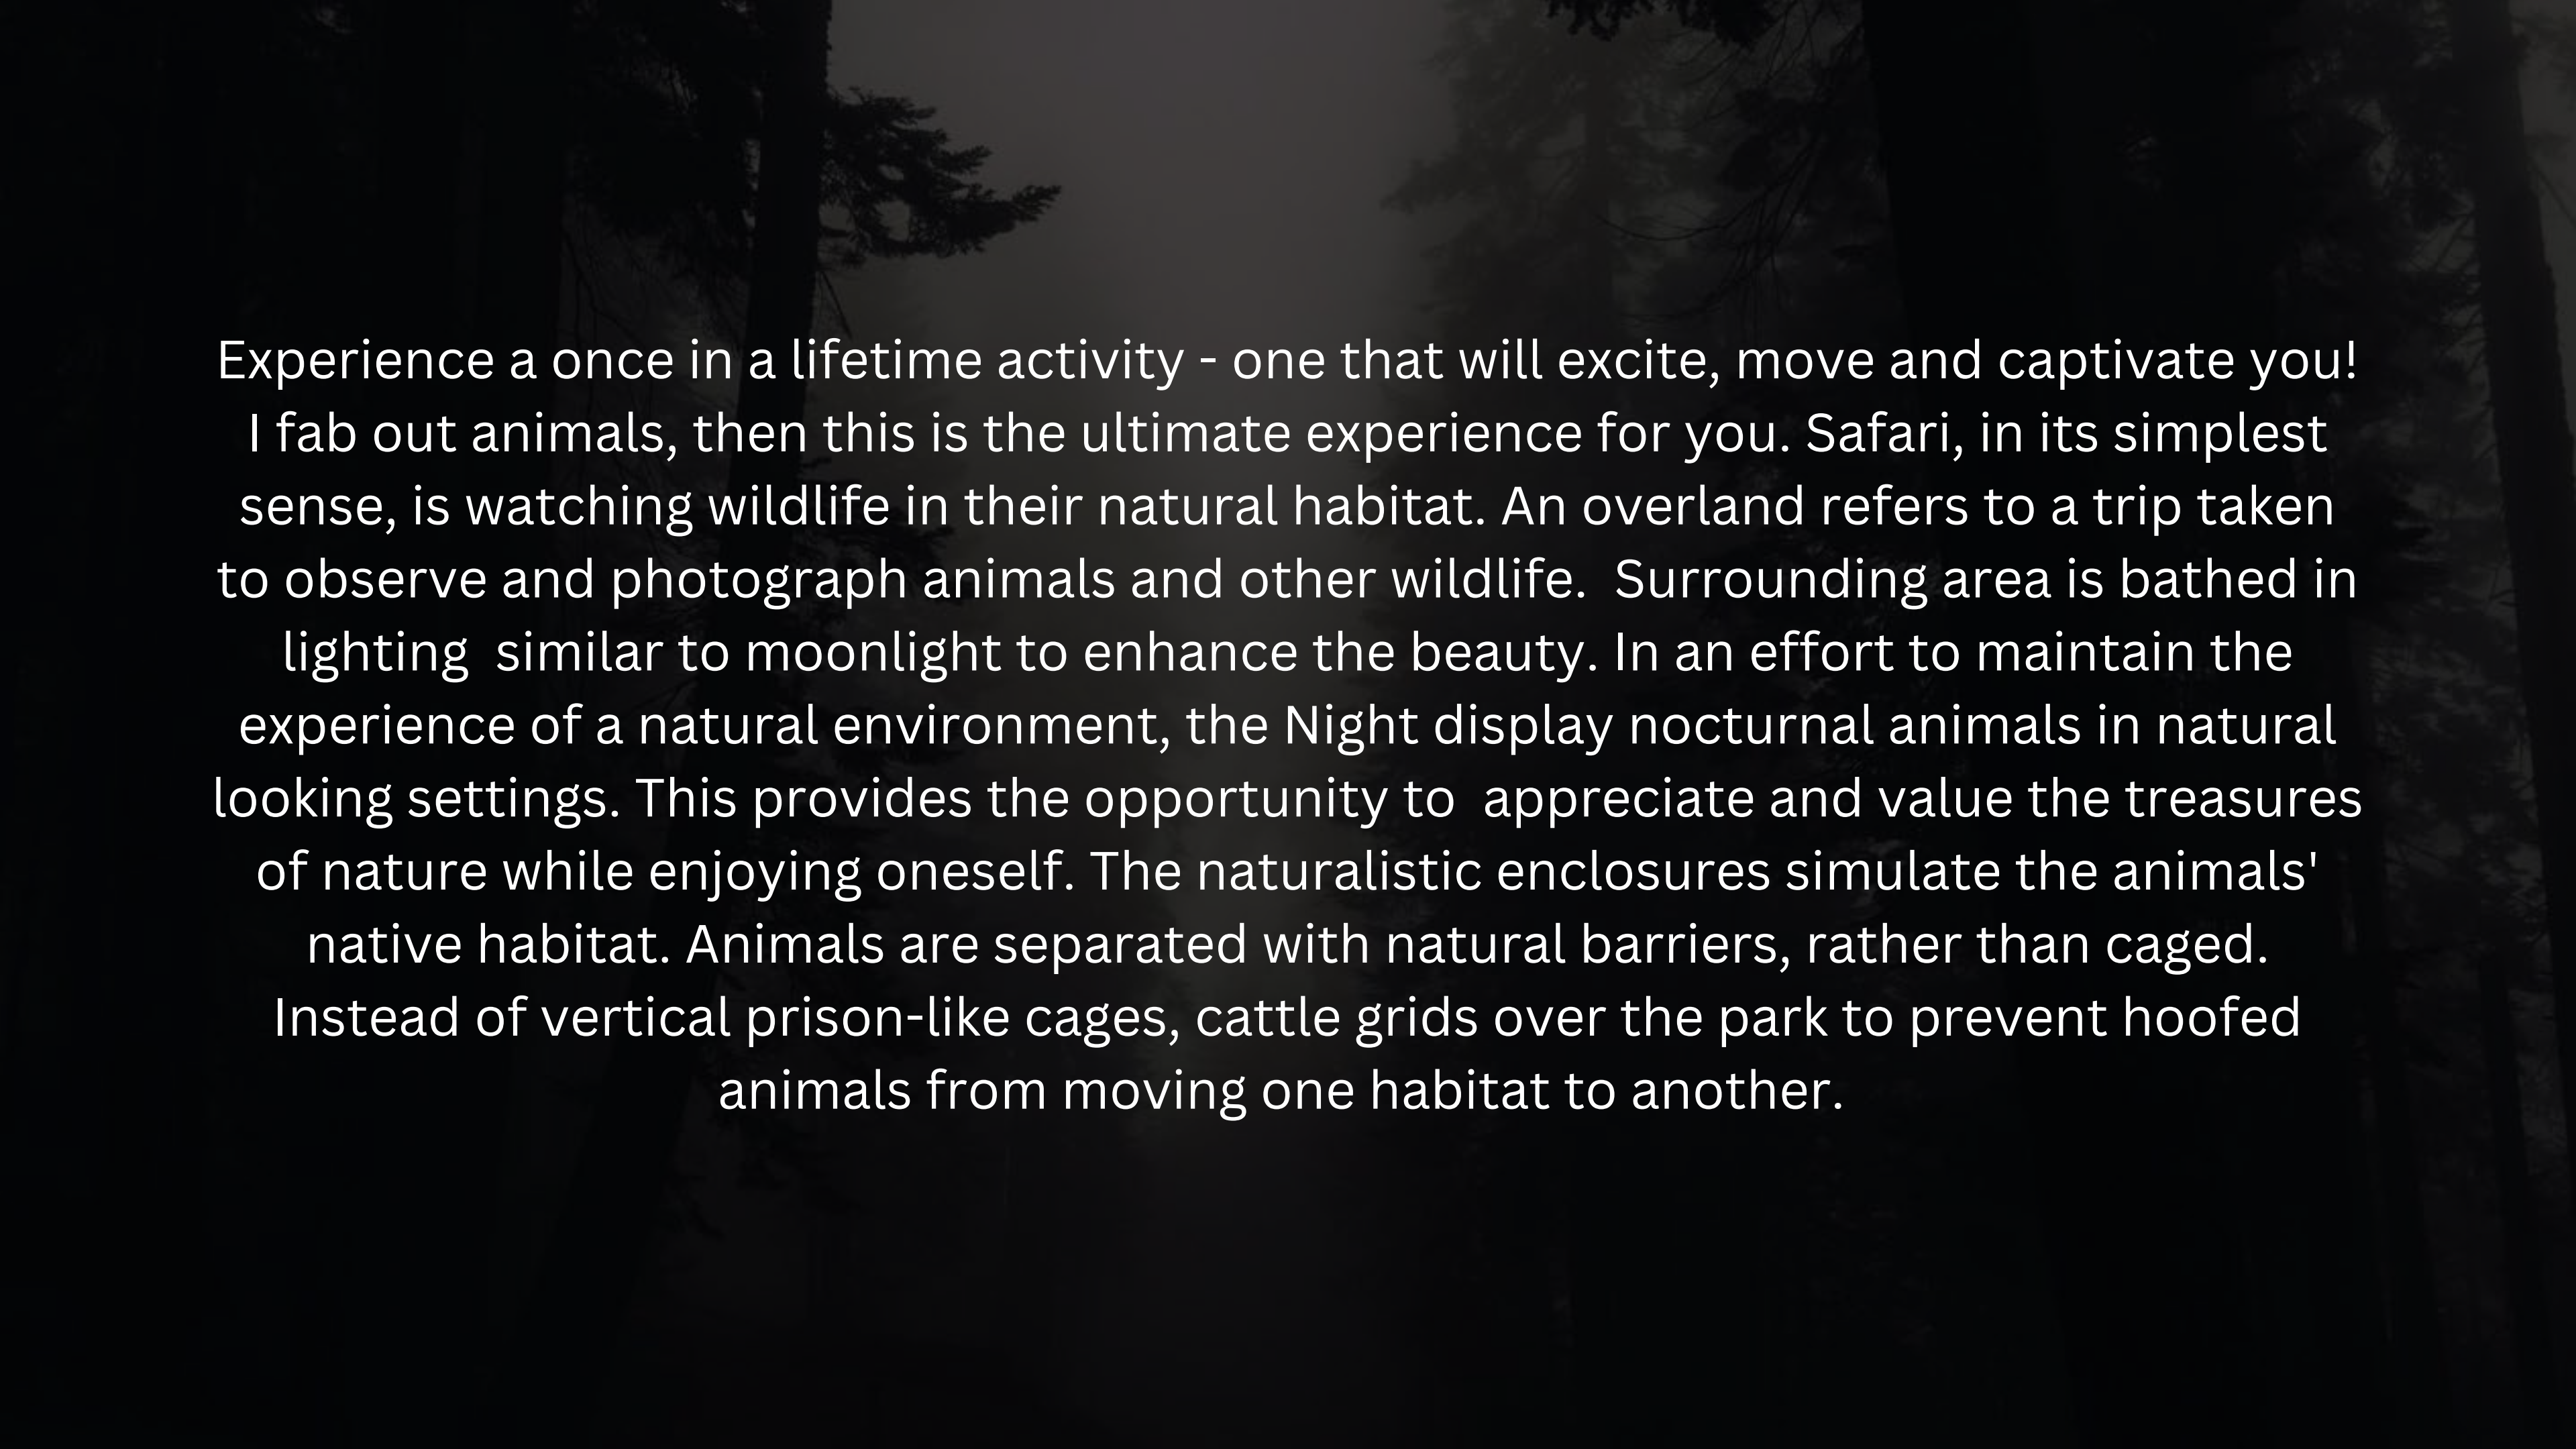

Laser tag is a team or individual sport or recreational activity where players attempt to score points by tagging targets, typically with a hand-held infrared-emitting targeting device.

NIGHT SAFARI

L e t u s t a k e y o u i n s i d e ...

Experience a once in a lifetime activity - one that will excite, move and captivate you! If you love animals, then this is the ultimate experience for you. Safari, in its simplest sense, is watching wildlife in their natural habitat. An overland refers to a trip taken to observe and photograph animals and other wildlife. Surrounding area is bathed in lighting similar to moonlight to enhance the beauty. In an effort to maintain the experience of a natural environment, the Night display nocturnal animals in natural looking settings. This provides the opportunity to appreciate and value the treasures of nature while enjoying oneself. The naturalistic enclosures simulate the animals' native habitat. Animals are separated with natural barriers, rather than caged. Instead of vertical prison-like cages, cattle grids over the park to prevent hoofed animals from moving one habitat to another.

The background image shows the interior of a large, light-colored tent. In the foreground, there is a bed with white linens and pillows. A tray with rolled-up white towels sits on a blue and white striped rug. In the background, the tent's entrance is visible, showing a wooden deck and some outdoor furniture. The text is overlaid on a black rectangular background in the center of the image.

We Also Build

LUXURY TENT

Container, Wood, Glass House etc..

The image shows the interior of a luxury tent. In the background, there is a large bed with a dark wooden headboard featuring intricate carvings. The tent has several arched windows that offer a view of a savanna landscape with trees and distant mountains under a blue sky with clouds. In the foreground, a large bed is covered with white linens and several pillows. A small, square wooden coffee table sits on a patterned rug, holding a glass and some keys. The overall atmosphere is one of comfort and elegance in a natural setting.

A photograph of a wooden house with a red tiled roof. The house has horizontal wooden siding and dark brown shutters on the upper windows. A yellow semi-transparent banner is overlaid across the middle of the image, containing the text 'WOOD HOUSE' in large, bold, red capital letters. The house is surrounded by lush green trees and bushes.

WOOD HOUSE

- **Floor Truss:** 70 x 140mm Wooden Rafters skeptical to weathering in few years.
- **Walls:** 50-70mm Wooden walls with no insulation.
- **Roof:** Rafter of 50-70mm thickness with 12mm cladding over it.
- **Insulation:** Roof insulated with 50mm Glass Wool of 32 kgs/m³ density, no insulation in walls.
- **Wood moisture content:** Entire structure made of wood with moisture level 12-14% which will absorb more moisture in coming years resulting in poor performance.
- **Fire Rating:** As the entire structure is made of wood, it can never be fire rated as per the norms and the risk is maximum.
- **Termite:** Entire structure made of wood which is always at risk of termites resulting in weakening the structural stability.
- **Electrical and Plumbing conduits:** All electrical conduits and plumbing pipelines exposed as the walls doesn't have any cavities as it made of solid wooden logs.
- **Weather effects:** Wooden structures will behave differently in different weather conditions and are skeptical to harsh weathers.
- **Warranty:** 15 years on wood rotting, no warranty for structural stability and leakages

CONTAINER HOUSE

Container homes are an innovative concept wherein a steel structure, ship structures, basically, is transformed into a living space. These huge containers which are as big as a single floor of a home are stacked and joined to make multiple storeys.

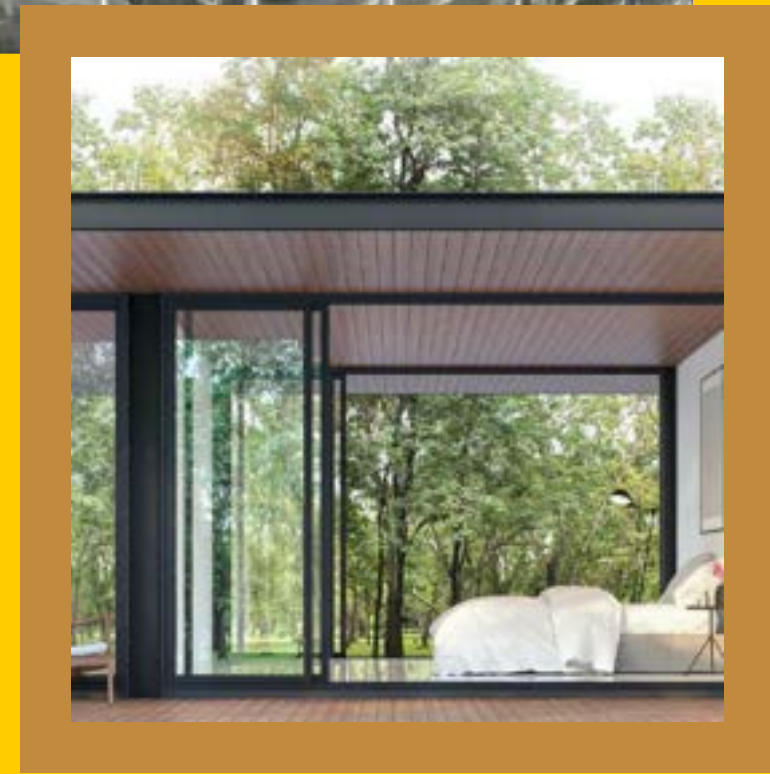

Across the world, container homes have gained popularity over the years. Such homes have now become one the trendiest spaces when it comes to architecture and design.

A photograph of a glass house, likely a conservatory or sunroom, with a black metal frame and translucent glass panels. The structure is set against a clear blue sky. A bright yellow rectangular overlay is positioned in the center of the image, featuring the words "GLASS HOUSE" in a bold, red, sans-serif font. The glass panels show some reflections and textures, and the overall scene is brightly lit.

GLASS HOUSE

A greenhouse (also called a glasshouse, or, if with sufficient heating, a hothouse) is a structure with walls and roof made chiefly of transparent material, such as glass, in which plants requiring regulated climatic conditions are grown.

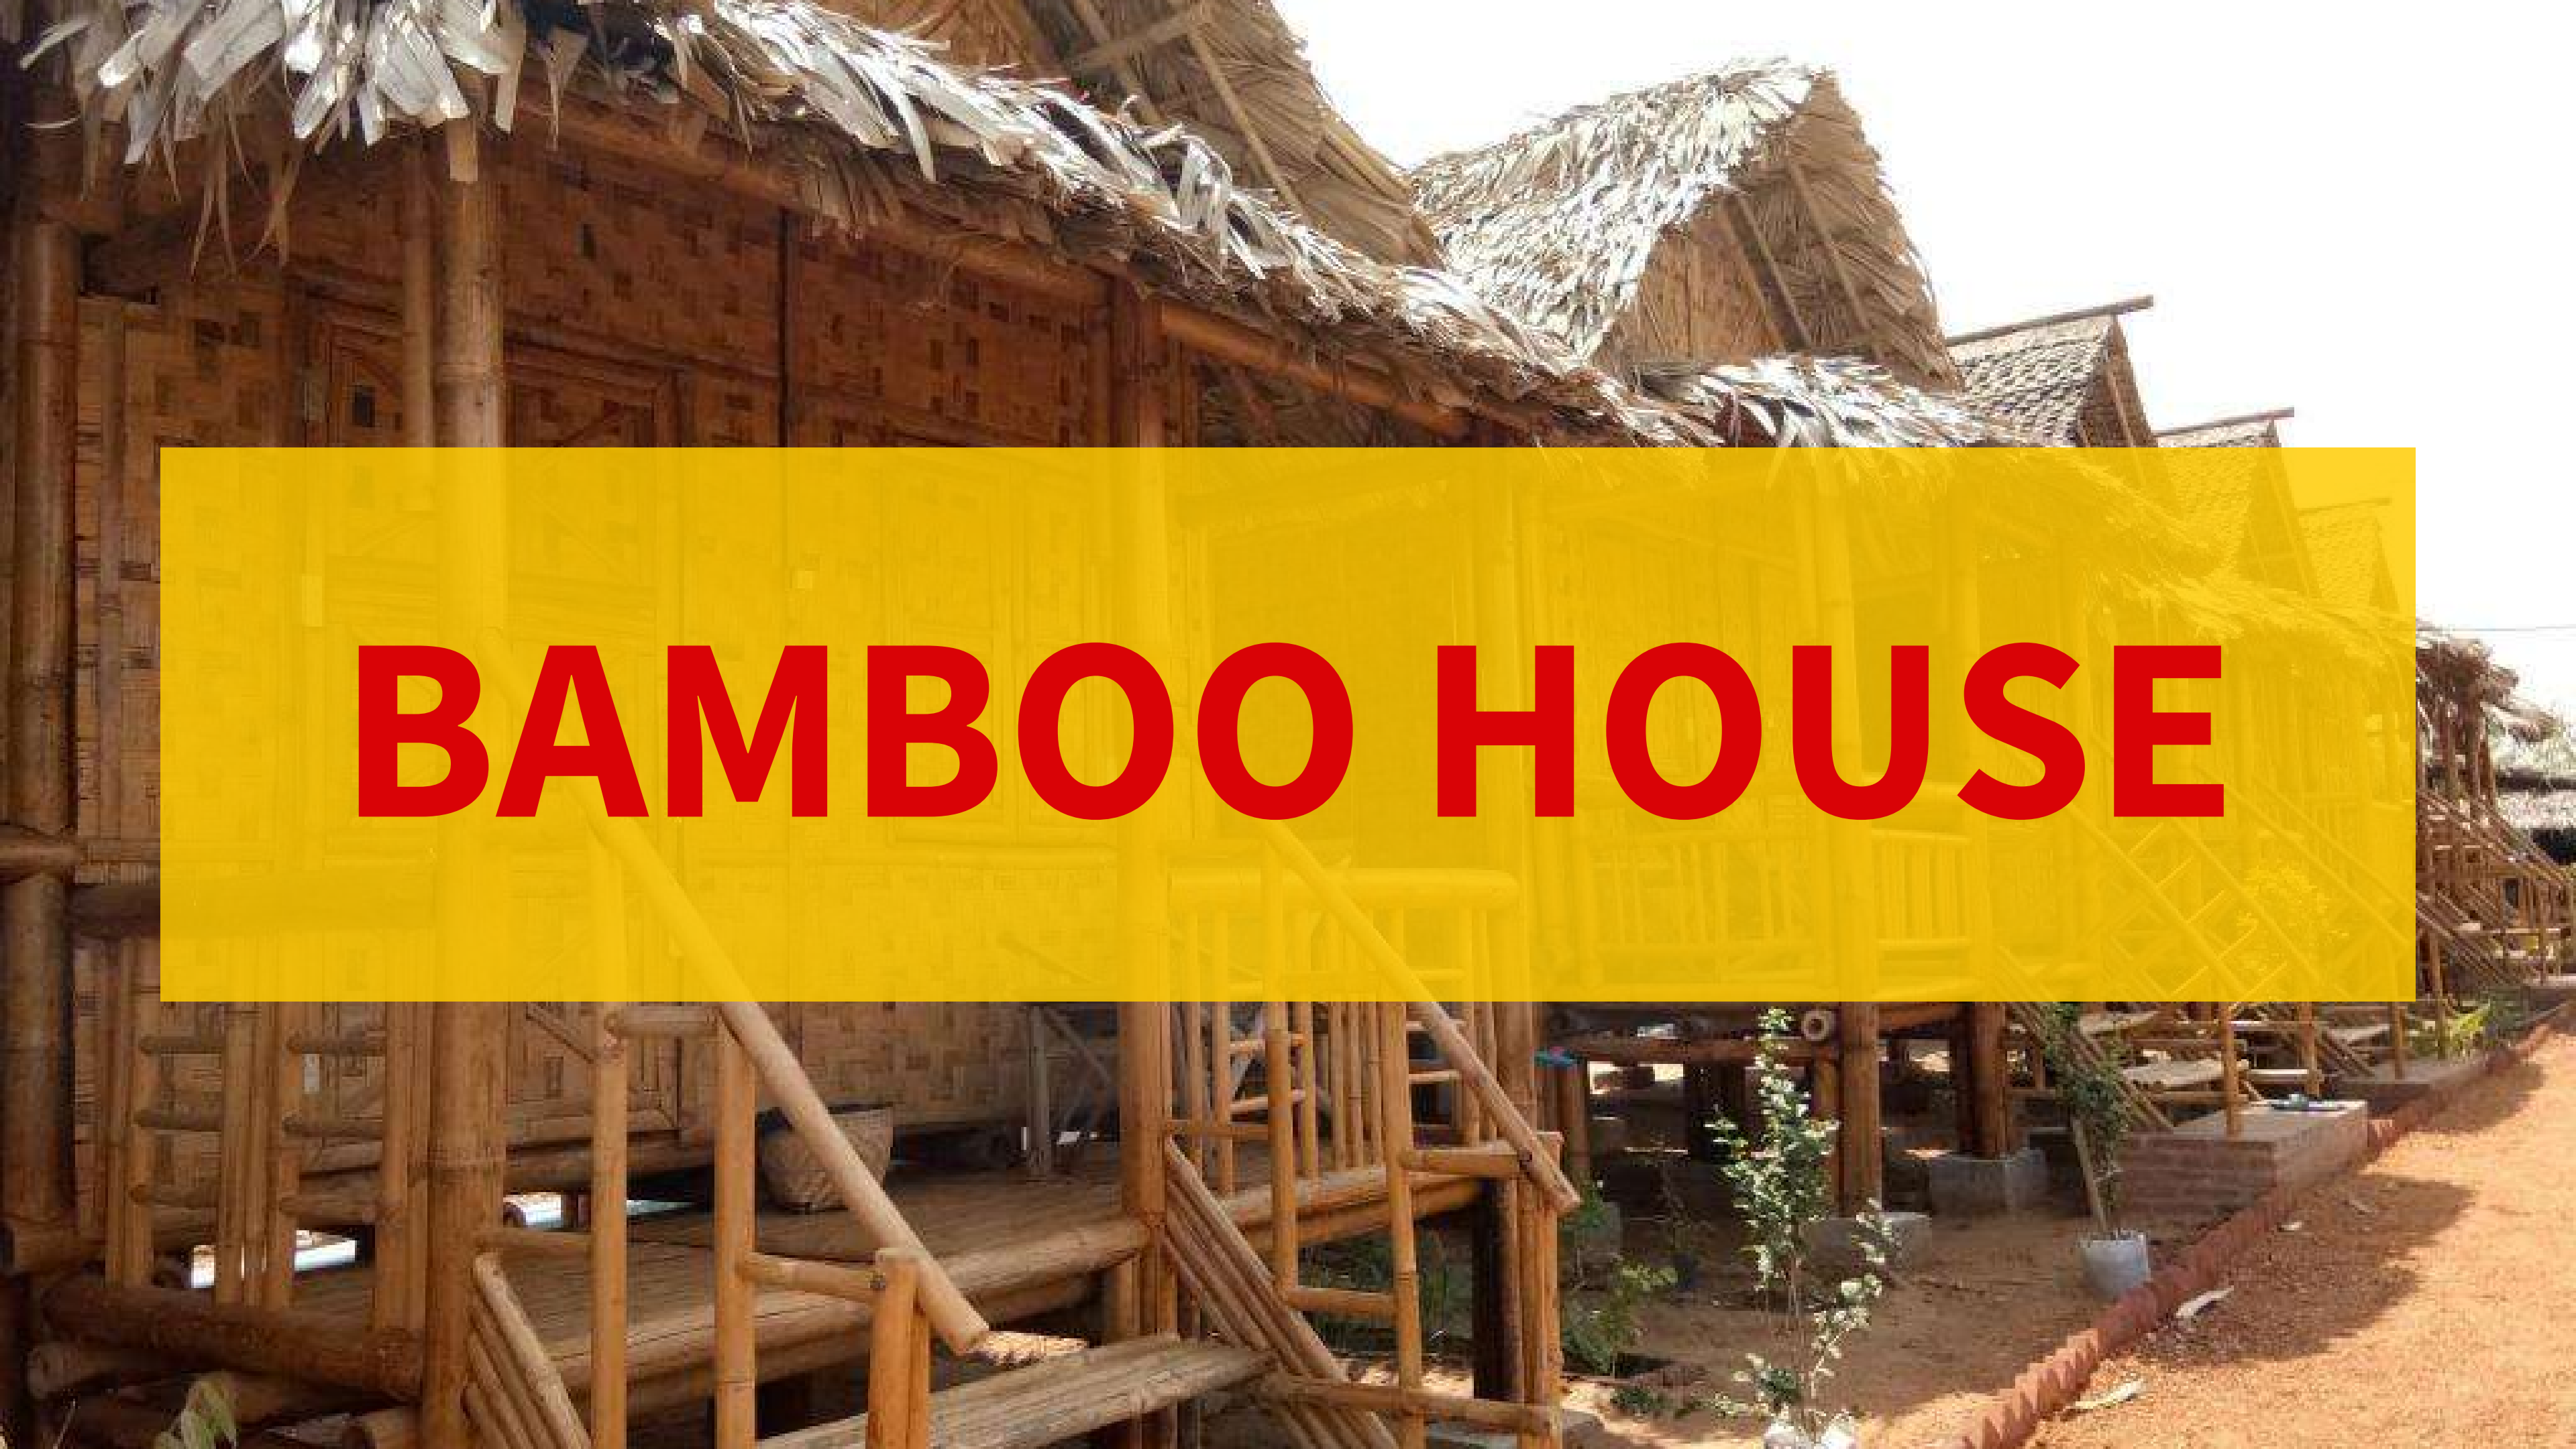

BUBBLE HUT

The bubble tents provide a whole new approach to camping, first by being more connected to the nature, and then by providing a more luxurious setting. Probably the best way to sleep under the stars.

A photograph of a traditional bamboo house with a steep, thatched roof. The house is constructed from bamboo poles and has a yellow banner across the middle with the text "BAMBOO HOUSE" in red. The house is situated on a dirt path, and there are other bamboo structures in the background.

BAMBOO HOUSE

Bamboo, a sustainable building material, has been used in the construction of traditional houses in tropical regions of southeast Asia and other parts of the world for a long time.

The entire structure of a traditional Dai bamboo building is made of bamboo bundling. The walls are made of bamboo sticks (thin pieces of bamboo), while the roof is covered with straw clamped by bamboo sticks. The bamboo building is very light.

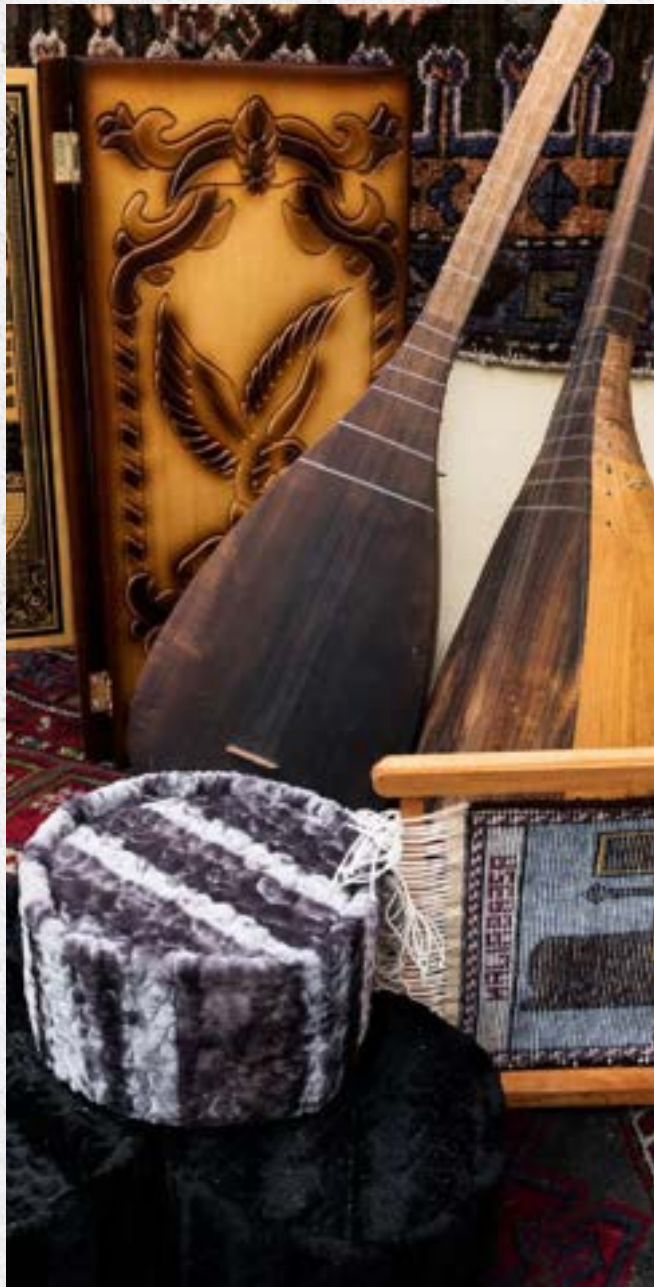

MUD HOUSE

HOUSE

Mud house construction is one of the oldest approaches to building walls in India. mud house is a building construction that makes use of soil excavated from the land where the house is built.

SOUVENIR SHOP

Food Court

STRENGTHS

- The entire project will be conceptualized and executed by professional enthusiasts, with through knowledge about activities, project execution and safety.
- The Project Project of this scale will be one of its kind and for the first time in the entire world.
- Project will backed by a team of visionary investors having sufficient knowledge in this field.
- The ever growing tourist inflow ensures the continuity of the project.
- Adventure travel / sport is one of the fastest growing market which is estimated at Euros 15000 million.
- Most suitable geographic location for such a project.
